PARENT INVOLVEMENT IN EDUCATION

The Gilford School Board recognizes the importance of having parents involved in the educational programs of their children. Since current research indicates that a home/school partnership and greater involvement of parents in the education of their children generally result in high achievement scores, improved student behavior, and reduced absenteeism, parents of students enrolled in the district's programs are encouraged to take an active role in the education of their children.

In an attempt to ensure that parents more fully participate in their child's educational programs, the Gilford School District supports the following activities:

- The district will provide timely information concerning their programs, including program plans, descriptions, and evaluations.
- The district will notify each child's parents, in a timely fashion, if a child has been selected to participate in special district programs and the criteria used in making the selection.
- Conferences between individual parents and teachers will be held on a regular and continuing basis.
- The parents of each child selected for services under the Federal legislation, Individuals with Disabilities in Education Act (IDEA), Guidance, or the federally funded Title I grant will be informed of the specific instructional objectives and progress for their child.
- Parents of children identified to participate in Title I programs will receive from the school principal and Title I staff an explanation of the reasons supporting each child's selection for the program, a set of objectives to be addressed and a description of the services provided.
- The district will provide opportunities for the training/orientation of parents whose children are enrolled in the programs for the purpose of promoting the education of these children at home as well as in school.
- The district will solicit parents' suggestions in the planning, development, and operations of the districts' programs.
- The district will consult with parents about how the school can work with parents to achieve the school and program's objectives
- The district will provide consideration and when applicable, timely responses, to parents' suggestions.
- The district will sponsor annual open house and information activities for parents.
- The district will provide parents with a district and school report cards, which review the achievement of all students and specified subgroups of students.
- Upon request, the district will provide parents with teacher and/or paraprofessional qualifications.
- The district will notify parents if an unqualified person has taught their child for 4 consecutive weeks.

family engagement policy and its effectiveness in improving the academic quality of the schools served. SERVICE ANIMALS

Purpose

This policy addresses the use of service animals within school buildings and on school grounds. As established and defined by the Americans with Disabilities Act and its accompanying regulations, individuals with disabilities shall be permitted to bring their service animals in school buildings or on school grounds in accordance with this policy. Conditions relative to pets and non-service animals within the school building and on school grounds are found in Board Policy IMG.

“Service Animal” Defined

In accordance with 28 CFR 35.104 (effective March 15, 2011) a “service animal” is defined as:

Any dog that is individually trained to do or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purpose of this definition. The work or tasks performed by a service animal must be directly related to the handler’s disability. Examples of work or tasks include, but are not limited to, assisting individuals who are blind or who have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing non-violent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine or telephone, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors. The crime deterrent effects of an animal’s presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or task for the purpose of this definition.

This definition shall be construed to include a “hearing ear dog,” “guide dog,” or “service dog,” as those terms are currently defined in NH RSA 167-D:3.

Permissible Inquires

The District will not make the inquiry about the nature or extent of an individual’s disability in determining whether to allow a service animal in a school building or on school grounds. When it is not patently obvious as to the role of the service animal, the District may ask whether the animal is required because of a disability and what work or task the animal has been trained to perform.

When a student or employee’s disability requires the presence of a service animal in a school building or on school grounds during the school day, the District shall also require annual submission of proof of current vaccinations and immunizations of the service animal and a

current veterinary health certificate.

Access to the School Buildings and Grounds

In accord with federal regulations, individuals with disabilities shall be permitted to be accompanied by their service animal in all areas of District schools, where members of the public, participants in services, programs, or invitees, as relevant, are allowed to go.

Animals for Children with Educational Disabilities or a Section 504 Plan

If a student with an educational disability or a Section 504 Plan seeks to bring an animal on a school campus that is not a service animal, the request shall be referred to the IEP or Section 504 Team to determine whether the animal is necessary for the student to receive a free and appropriate education (FAPE).

Management of Service Animals

Service animals must be under control of their handlers. A service animal shall have a harness, leash, or other tether, unless either the handler is unable because of a disability to use a harness, leash, or other tether, or the use of a harness, leash, or tether would interfere with the service animal's safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler's control (e.g., voice control, signals, or other effective means).

Care of and Responsibility for Service Animals

The District is not responsible for the care or supervision of a service animal. The owner or handler of the service animal shall be solely responsible for:

- Supervision and care of the animal, including feeding, exercising, clean-up and stain removal;
- Restraint of the animal at all times;
- Damages to the school buildings, property and vehicles caused by the animal;
- Injuries to students, employees, volunteers and visitors caused by the animal; and
- Annual submission of documentation of vaccinations and immunizations.

Animals for Employees

Use of a service animal by a qualified employee with a disability will be allowed when such use is necessary to enable the employee to perform the essential functions of his/her position or to enjoy the benefits of employment in a manner comparable to those similarly situated non-disabled employees.

Circumstances Under Which a Service Animal Will Be Prohibited from Campus

The Superintendent or other designee may ask an individual with a disability to remove a service animal from the campus or school event, or may even deny a request for use of a service animal on campus or at a school event if:

- The animal is out of control and the animal's handler does not take effective action to control it;
- The animal is not housebroken;
- The presence of the animal will require a fundamental alternation of the program or will significantly disrupt or interfere with the educational process;
- When the animal is to be used regularly during the school day or at school events, the handler fails to submit proof of current vaccinations and immunizations of the service animal and a current veterinary health certificate;
- To the extent applicable, the handler fails to comply with NH RSA 167-D.

If an animal is properly removed or prohibited from the premises, the District will continue to give the individual with a disability the opportunity to participate in District services, programs, or activities without having the service animal on the premises.

A decision to remove or prohibit a service animal from District schools may be appealed to the Superintendent of Schools.

IMGA - SERVICE ANIMALS IN SCHOOLS

(Download policy)

Category: Priority - Required by Law

A. General Conditions.

1. Use of a service animal by a person with a disability will be allowed in or upon District property when the animal is required to perform work or tasks directly related to the individual's disability.

Qualified individuals with disabilities and service animal trainers are eligible to use service animals in the School.

2. "Service animals":

a. "Service Animal" for the purposes of this policy shall mean and include any dog individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Service animal shall be construed to include a "hearing ear dog," "guide dog," or "service dog," as those terms are currently defined in NH RSA 167-D:1. "Emotional support," "therapy," or "comfort dogs" are generally not service animals for the purposes of this policy, except as may be provided under Paragraph B.2, below.

Miniature horses do not specifically fall within the state or federal statutory definitions for "service animal". However, miniature horses which have been individually trained to perform specific work or tasks may be permitted in the schools in certain circumstances as a reasonable accommodation for a qualified individual with a disability. Any such requests should be directed to the Superintendent or his/her designee, who in addition to the above will take into consideration the provisions of Paragraph B.2, and Section C, below. If a miniature horse is approved, all the conditions in this policy shall apply.

Other species of animals, whether wild or domestic, trained or untrained, are not service animals for purposes of this definition.

b. The work or tasks performed by a service animal must be directly related to the individual's disability. Under state and federal law, work and tasks may include, but are not limited to: (1) assisting individuals who are blind or have low vision with navigation and other tasks; (2) alerting individuals who are deaf or hard of hearing to the presence of people or sounds; (3) providing nonviolent protection or rescue work; (4) pulling a wheelchair; (5) assisting an individual during a seizure; (6) alerting individuals to the presence of allergens; (7) retrieving items such as medicine or a telephone; (8) providing physical support and assistance with balance and stability to individuals with mobility disabilities; and (9) helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors. The crime deterrent effect

of an animal's presence and the provision of emotional support, well-being, comfort, or companionship does not constitute work or tasks for the purposes of the law.

3. "Comfort" animals/pets: Animals which do not meet the definition of Service Animal as provided above, are not entitled to protection under this policy and are subject to such other applicable policies or administrative regulations of the District or school.
4. The District will have no responsibility for the training, feeding, grooming or care of any service animal permitted to attend school under this policy (except in the limited circumstances described in Section B.3.a, below. It shall be the responsibility of the individual with a disability or designated handler to ensure the proper care and supervision of the service animal.
5. All service animals must be kept on a harness, leash or tether (unless this prevents the animal from performing his/her specific work or tasks with the individual), or must otherwise be under the control of the individual with a disability or designated handler at all times.
6. The individual (in the case of a student, the student's parent/guardian(s)) is liable for any damage to District property or other personal property, and for any injuries to individuals caused by the service animal, consistent with any applicable laws.
7. Individuals with service animals may access the same areas that individuals without disabilities are authorized to access.
8. As used in this policy, "service animal trainer" shall have the same definition as that provided under RSA 167-D:1 as the same may be amended or replaced from time-to-time. As of February 1, 2017 that statute defines "service animal trainer": (i) as any person who is employed to train dogs for or is volunteering to raise dogs for a provider of service animals for persons with disabilities, (ii) or an individual trainer who helps a person with disabilities to train his or her own service animal, (iii) or an individual trainer who tests an animal to verify its eligibility for the New Hampshire service animal tag.

B. Administrative Review of Service Animals.

1. Whenever a service animal is in the school or on District property (and it is not obvious that the animal qualifies as a service animal, e.g., guide dog for a blind person), a building administrator or other authorized District personnel may ask:
 - a. Whether the service animal is required because of a disability;
 - b. What work or task(s) the animal has been trained to perform;
 - c. In the case of a service animal trainer, documentation of the individual's affiliation with a recognized organization as described in RSA 167, and section A.7 above.
2. If a student with an educational disability or a Section 504 Plan seeks to bring an animal on a school campus that is not a service animal as defined above, the request shall be referred

to the IEP or Section 504 Team to determine whether the animal is necessary for the student to receive a free and appropriate education (FAPE). After such review, if the animal is deemed necessary for the student to receive FAPE, then the animal shall be a service animal for the purposes of this policy.

3. When it is anticipated that a service animal is going to be in school on a regular basis with a third party (e.g., employee, volunteer, service animal trainer or other frequent visitor to the school), the individual using the service animal (or in the case of a student, the student's parent/guardian(s)) are strongly encouraged to notify the Superintendent or the Principal in advance.

a. The school will not provide any staff support to care for or control a service animal, but may provide support to a student using a service animal as needed in a particular instance (i.e., accompanying a young student who takes a service animal outside to relieve itself).

b. Any handler (service animal trainer, parent/guardian or other person) accompanying the service animal must have approval to work in the school from the New Hampshire Department of Education and undergo the State criminal background check.

4. Service animals must be properly licensed and vaccinated in accordance with New Hampshire law (see RSA Chapter 466).

C. Additional Considerations Relative to Service Miniature Horses.

In making a determination as to whether to allow a specific miniature horse as a service animal, the Superintendent/designee will consider pertinent factors, including, without limitation:

a. The type, size, and weight of the miniature horse and whether the facility can accommodate these features;

b. Whether the handler has sufficient control of the miniature horse;

c. Whether the miniature horse is housebroken; and

d. Whether the miniature horse's presence in a specific facility compromises legitimate safety requirements necessary for the safety of students or others.

D. Removal or Exclusion of Service Animals from School.

1. The Superintendent, Principal or other authorized school official may require that the service animal be removed from the school or other District property under any of the following circumstances:

a. The service animal poses a direct threat to the safety of individuals, causes a significant disruption of school activities or programs, fundamentally alters the nature of any school program, or otherwise jeopardizes the safe operation of the school in a manner that cannot be eliminated by modifications;

- b. The service animal demonstrates that he/she is unable to perform reliably the work or tasks which he/she was represented as being able to perform (which is required to be defined as a service animal);
 - c. The service animal is not under the full control of the person with a disability, or the authorized handler/trainer, and the individual does not take effective action to control the animal;
 - d. The service animal is sick (i.e., vomiting, etc.), infested with parasites, has an infection of the skin, mouth or eyes, or otherwise presents a threat to the public health (applying the standard that would be applied to any other animal allowed on school premises); and/or
 - e. The service animal is not housebroken (i.e., demonstrates that it is not sufficiently trained to relieve itself outside in appropriate locations).
2. If a service animal is removed or excluded, the individual shall still be provided access to school facilities, programs and/or services.
